WEATHER

Fair tonight, Saturday; little temperature change; high, 95; low last night, 51.

COLOMA NATIVE SUMMONED

Mrs. Mary Jane Rowlands, 74, Stricken While Visiting Daughter At Long Beach

Mrs. Mary Jane Rowlands, 74, widow of John Rowlands, early day mining man of this county, died Thursday evening at Long Beach where she had been visiting her daughters.

A daughter of county pioneers, Mrs. Rowlands was born at Coloma and made this county her home throughout her life. In later years she had been away, visiting her children at the bay district and at Long Beach, but El Dorado County was always her home.

The announcement of her passing will be received with great sadness by her many friends, who, throughout her life, have admired and respected her for her many excellent qualities.

She was a member of Leona Rebekah lodge.

Mrs. Rowlands is survived by four daughters and one son, who are, Miss Mary Jane Rowlands of Berkeley, Miss Myrtle E. Rowlands of New York City, Mrs. Lillian Morrison and Mrs. Jessie Cross of Long Beach, and John Rowlands of Placerville.

Miss Myrtle had very recently concluded a visit with her mother and sisters at Long Beach and is now enroute to New York City.

The funeral services will be held in Placerville under arrangements yet to be completed, with the assistance of Memory Chapel.

Tropical Storm Hits Florida

8 Inches Of Rain Recorded As 60-Mile Gale Sweeps To Sea; Homes Are Flooded

MIAMI, Fla. (UP)—The season's first tropical disturbance, accompanied by 60-mile an hour winds, moved out to sea today after crossing the Florida coast line north of St. Petersburg.

Eight inches of rainfall were recorded at Clearwater. Basements of many homes and buildings, including the city hall, were flooded. Several sailboats were turned over.

Power in Tampa was cut off for an hour when several telephone poles were blown down.

The storm was described by the weather bureau as "a small tropical disturbance."

GARY COOPER REPORTS HOME BURGLARIZED; LOSS MAY TOTAL \$25,000

HOLLYWOOD (UP)—Gary Cooper's home was burglarized of more than \$18,000 in jewelry early today.

The home was ransacked shortly before Cooper and his wife returned from visiting friends. In addition to the gems, the burglars took expensive dinner plate and linen that may raise the loss to \$25,000, he said.

The burglars gained entrance by cutting the screen of a bathroom window, and searched many rooms before Cooper's dog aroused the housekeeper.

Neon Lights Name Departments In Sprouse-Reitz Store

New neon lights, designating the names of the eleven major departments in the Sprouse-Reitz store, have been installed and are working out very satisfactorily, according to manager Brunback. They have been arranged through the entire store, suspended from the ceiling. A time clock turns them on and off at hours designated.

Guardsmen Of 3 States In Annual Encampment

SAN LUIS OBISPO (UP)—Advance units of the California National Guard were setting up tents today and preparing their camp for occupation by 800 guardsmen from California, Nevada and Utah. The annual training session starts Monday morning. Regular units will arrive over the week-end.

Mr. and Mrs. Charles Leventon were in town from Grizzly Flat on Friday.

CHARTER MEMBERS OF MARGUERITE PARLOR NO 12, N. D. G. W., were honored Wednesday evening as the parlor observed its fiftieth anniversary in a meeting at the Odd Fellows' hall. Of the nine living charter members, six were present and the above picture was taken as they were being presented with remembrances by Mrs. Nora Gray, general chairman, assisted by Mrs. Eva Shuman, as Grand Marshall. Mrs. Gray and Mrs. Shuman stepped aside as the picture was taken.

The charter members are in the first row, left to right, May Bailey, Laura Schiff, Lena Rantz, Josephine Pratt, Nellie Mariner and Louise Sheppard.

In the rear row, are other distinguished guests of the evening: Edna Briggs, center, Grand Vice President of the N. D. G. W., and at her right, Henry S. Lyon, Grand Third Vice President of the N. S. G. W., and at her left, George Hofmeister, only living charter member of Placerville Parlor No. 9, N. S. G. W.

Also in the picture are the Grand Marshall's escort team, who escorted the charter members. They are, left to right, Ruth Lyon, Gladys Akin, Mildred Lefevre and Bernice Shuman, Agnes Schiff and Pearl Tinney.

Photo by Land. A Democrat Engraving.

RENO COUNTERFEITER SUSPECTS JAILED

Trail Of Spurious \$5 Bills Followed Through 3 States By Federal Agents

RENO (UP)—A counterfeit ring that has been passing bogus \$5 bills through Northern California, Oregon, Washington and Nevada, was believed broken early today with the arrest of the alleged ringleader and his chief accomplice.

James F. Swope, dapper and middle-aged, was declared by U. S. Secret Service Agent S. J. Moffitt to be the head of the gang, which has been operating several months.

Guy Arcaro, 29, was the second man arrested by Reno police, who said he had been passing counterfeit currency allegedly supplied by Swope.

One bogus bill was found in Swope's possession. Moffitt said he apparently had hidden a large supply he was known to have had prior to his arrest in a Reno hotel.

ROOSEVELT "DISTURBED" OVER RENEWAL OF SINO-JAP HOSTILITIES

By JOHN R. MORRIS
United Press Staff Correspondent
SHANGHAI (UP)—A Chinese government army poured northward today—apparently a day too late—to challenge the Japanese war machine to a finish fight.

Authoritative reports from Nanking, the national capital, said that the vanguard of the government troops had arrived in the neighborhood of Tientsin. But they arrived, disjointed dispatches indicated, to find that the northern troops had broken.

The issue of peace or war remained to be decided.

ROOSEVELT "DISTURBED"
WASHINGTON (UP)—President Roosevelt today described the Chinese-Japanese hostilities in North China as very disturbing and said he intends to remain in or near the White House over the week-end to keep in touch with the situation.

Forest Fire Hazard Abates, Forecast Indicates

Although fire lookouts will continue their vigilance and all regulations in the interest of fire prevention will continue in effect, the danger of forest fires will abate to some extent during the next few days.

This is according to a weather forecast received at Eldorado Forest headquarters Friday morning from the weather bureau at San Francisco which says:

"Increasing cloudiness, cooler, rising humidity, gentle to moderate south to west winds, occasionally fresh; becoming unsettled, probably thunder-showers Saturday."

Dr. Babcock Plan Aerial Vacation Trip

Dr. D. W. Babcock and Dr. Mrs. Jean Babcock leave this week-end, possibly Saturday, on a ten-day aerial vacation tour of the Middle West.

They will be accompanied by Dr. D. W. Babcock's parents, Mr. and Mrs. Frank Babcock of Angwin, in Dr. Dan Babcock's five-passenger cabin monoplane.

During the absence of the Drs. Babcock, their practice will be in the care of Dr. Elton Morel, who with Mrs. Morel and their two children will occupy the Babcock residence.

Dr. and Mrs. Morel have been visiting here for some time, having just returned from five years in Africa.

2 Dead, 5 Hurt In Ship Fire

Two Missing; 91 Escape As Flames Destroy Steamer In Chesapeake Bay

By JOHN R. BEAL
United Press Staff Correspondent
BALTIMORE, Md. (UP)—The smoldering wreckage of the 26-year-old stern-wheeler City of Baltimore wallowed in Chesapeake Bay today as officials counted two dead, five injured and two missing in a fire which converted the vessel into a blazing furnace last night.

Safe on shore were 91 passengers and crew members, many of whom were forced to leap—lifeline clad—into the chill waters of the bay to escape the scorching flames which flared from an unknown source below deck and amidship.

Origin of the fire was not established definitely. Apparently it started in the galley, ships officers said. All witnesses agreed that it broke out first below deck and amidship.

Scores of rescue boats, many of which worked all night, picked up survivors, still plied about the smoking hulk in an attempt to locate the two persons—one crew man, one passenger—still unaccounted for.

New Concrete Floor Laid At Fire Headquarters

The reason the city fire trucks have been parked on Sacramento street, opposite the fire headquarters, was explained Friday morning by City Marshal James P. Morton.

The city crew has been laying a new concrete floor in the headquarters of the Volunteer Fire Department, an improvement which will be very much appreciated by the firemen.

Mrs. Frank Richards is home from her vacation and returned to her duties in the Wudell Women's Shoppe.

FOURTH REPRIEVE IS ASKED FOR KILLERS

Slayers Of North Sacramento Officer May Go Before State Supreme Court Asking Writ

SAN FRANCISCO (UP)—Alfred Paine, 27, and Hugh Smith, 28, both of Oakland, today awaited their fourth reprieve from the gallows. They were convicted of first degree murder in the slaying of Elton Fish, North Sacramento police chief.

Lieutenant Governor George J. Hatfield, chairman of the advisory pardon board, announced he will ask Governor Frank Merriam to grant a reprieve for the pair until the State Supreme Court can rule on the contention the condemned men were convicted on error.

Attorneys for Paine and Smith said they will file a petition for a writ of habeas corpus to bring the question before the high court.

Defense lawyers, in yesterday's board hearing, contended that Fish was not killed during a robbery, but after it had been concluded. Hence, they argued, the slaying was not first degree murder under state law.

LINOTYPE, PRESSES TO PLAY REQUIEM FOR LATE EDITOR OF MISSOURI NEWSPAPER

PARIS, Mo. (UP)—A clacking linotype and a whirring press will play the requiem for Editor Tom V. Bodine tomorrow when, in accordance with his last request, his body will be taken "down to the office" of the Paris Mercury and lie in state at the scene over which he presided for the past 50 years.

Bodine died last night in a Moberly hospital.

Bodine had confided to a relative two weeks ago that he thought he would soon die. "After my death I want to be taken to the newspaper office with the presses and the new linotype machine all running," he said.

Henry Ford, 74, "Has No Aversion To Work"

DEARBORN, Mich. (UP)—Henry Ford was up early, as usual, today, paying little attention to the fact that it was his 74th birthday.

I was understood that no special observance of the birthday anniversary was planned. Close friends will call during the day and a family gathering, it was reported, will be held during the evening.

Recently Ford attributed his general fitness to the fact "that I have no aversion to work."

Rev. Harold G. Morehouse has returned from a month's vacation, spent at Berkeley and at the meeting of the California Synod at Zephyr Cove, Lake Tahoe.

6 INJURED AS FIRE TRUCK HITS DITCH ENROUTE TO BLAZE

Investigation Of Three-Way Crash Is Planned By State Fire Warden; Four Of Suppression Crew Bruised, Two Women Badly Shaken Up

Six persons were injured, none of them seriously, on Thursday evening when a state fire truck, enroute to answer an alarm, was wrecked on the state highway a short distance west of Camino.

That someone was not killed in the smash-up, which involved two passenger cars in addition to the fire truck, is considered miraculous.

It was reported Friday morning that an investigation into the cause of the crash is planned by State Fire Warden Willard Austin.

Ronald Dixon, a member of the fire suppression crew at Mt. Danaher, state division of forestry fire headquarters, was the most seriously hurt.

He is a patient at Placerville Sanatorium under the care of Dr. W. A. Reckers, who reports the young man has no fractures, but suffered multiple bruises and lacerations. The doctor said he will remain a hospital patient for a day or so and probably will not be able to return to work for a month.

Others injured are Franklin Heidinger and Armstrong Kanuha, of the suppression crew, and Kenneth Hodgkins, driver of the fire truck.

Malcolm Dixon and Robert Bacon, also on the fire truck, jumped or were thrown to safety.

Miss Myrtle Phelps and her mother, Mrs. Kate Phelps, of Camino, were badly shaken up and their car badly damaged.

Two other women, occupants of a third car, escaped uninjured and were able to drive their car away. According to Traffic Officer Bob Fowler, the two women agreed to make a report of the accident as they saw it, on Friday.

The fire truck was enroute to answer an alarm near the residence of Dr. and Mrs. D. W. Babcock, northwest of the city, where a brush and grass fire of unknown origin was burning.

The Phelps car, it is reported, was (Turn to Page 3)

Road Surfacing Contract Let

Seal Coat To Be Applied On Existing Route In El Dorado And Neighboring Counties

SACRAMENTO (UP)—Contracts for highway work totaling \$139,313.40 were awarded today by Director of Public Works Earl Lee Kelly. Details of the awards are:

Applying seal coat to 43.2 miles of existing road bed in Yolo, Colusa, Yuba, Placer, Nevada and El Dorado counties; Heafey Moore Co., and E. F. Hilliard, Sacramento, \$28,221.50.

Lassen County—Construction of a graded road bed including surfacing, on state route 73 between Lake Leavitt and Litchfield; Harms Brothers, Litchfield, \$51,171.90.

Humboldt County—About 5.2 miles of surfacing and shoulder construction on the Redwood highway between Beatrice Overhead and Eureka; Hemstreet and Bell, Marysville, \$59,920.

HUGE BOULDER CLAIMS LIFE OF TOT, INJURES THREE, IN PLUNGE DOWN CANYON

CASTLEGATE, Utah (UP)—A huge boulder, loosened from a mountainside by torrential rain, crashed into the center of this town late yesterday, smashed a wall of a home and killed five year old Ellen Burgess.

The stone crushed two other occupants of the home and less seriously injured the child's father, Clyde Burgess.

Mrs. Burgess and Ruby Petty, 6, a neighbor's child, were in critical condition. Both were believed to have suffered skull fractures, and Mrs. Burgess was injured internally. Her husband escaped with a fractured ankle when the boulder crashed into his home.

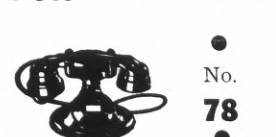

Rev. E. E. Clark Concludes Week's Visit In City

Reverend E. E. Clark, who was pastor of the Presbyterian church in this city twenty years ago, left Friday for his home at Eagle Rock, near Los Angeles.

The Rev. Clark came to Placerville enroute home from attending the annual California Synod, held recently at Zephyr Cove, Lake Tahoe, and officiated Sunday morning at services at the Federated church.

During the week he has been the house guest of Mrs. M. P. Bennett and has been warmly greeted by the many residents whom he numbers as his friends and acquaintances.

DOING A LITTLE PRUNING

Rev. C. P. Smales and family are united again. Coming here from Whittier a few weeks ago to accept the pastorate at the Church of the Nazarene, Rev. Smales left Mrs. Smales in Whittier, to await an important occasion. During the past week Rev. Smales and daughter, Edna, went to Whittier and returned with Ruby Smales, Mrs. Smales and the baby daughter, Edith Irma.

PARADE OF SPORTS

By HENRY McLEMORE
(United Press Staff Writer)

NEWPORT, R. I. (UP)—Flying the muslin burgee of the Gobi Desert Yacht Club, and with this freckled Viking at the helm, the Jitters II put out to the open sea yesterday for an observation spin around the America's cup course.

Knowing that on Saturday I would have to begin furnishing an account of the battle between Harold Vanderbilt and T. O. M. Sopwith, right down to the last inaccurate detail, I felt it my duty to gain a first hand knowledge of the waters they will sail. So, one hour after arriving at Newport, I rented a boat and, with a gay wave at the enterprising morticians who had gathered to see me off, set its prow toward the Atlantic Ocean.

The boat had no name so before setting sail I broke a bottle of Lydia Pinkham's across its bow and cried:

"I christen you Jitters, the second!" Jitters the second, is a catboat, so named because a cat, if it has no regard for creature comforts, can find room to set up light housekeeping.

A single cat, that is. A married cat would find it too confining even if his family consisted only of a wife, and the dear little kittens were yet to come along.

My catboat measured 14 feet over all, counting the taffrail, which is the board in the back that holds the double clew job and jury scuppers. I know its exact length because one of the morticians, after measuring me for a double-breasted bronze number, obligingly lent me his tape measure.

While not quite as large as Vanderbilt's Ranger Sopwith's Endeavor (they measure nearly 90 feet in length) Jitters II carried enough sail to give the winds of the course a fair test. As my No. 1 or "hot shot" sail I carried a quadrilateral spinnaker with topsail and forestop sail attachments. For the benefit of my readers who are not familiar with yachting terminology, a quadrilateral spinnaker is roughly the size and shape of a Boy Scout troop leader's tent, and a topsail resembles a department store's handkerchief display. A fore topsail is very little different from the ordinary distress sig-

nal flown by well-to-do marooned persons.

Backing up these sails in the wind catching business I had a mainsail (that's the big one that flies from the boom), a balloon jib, and a stay sail, the latter being the familiar bit of cloth that hangs from the mast or flagpole.

I started out Narragansett Bay on a broad reach. A broad reach is not to be confused with a gent reach. On a broad reach you head straight into the wind, avoiding as many shoals as possible. On a gent reach you tack—that is, you sort of side into the wind after the manner of a horse when an automobile passes too close to him. In other words, a gent reach is the same as a luff.

When Jitters II reached the open sea the wind had freshened, and was coming straight out of NE by NS by FDR by WPA. Jitters II quickly took the bone in her teeth and began run-

ing before the wind. I took advantage of this quiet moment to write in my log. I believe extracts from it would give you a satisfactory account of the America's cup course. So, with your permission, I will quote:

"3:34 p. m.—Cracked on head by boom. Lots of seagulls around.

"3:58 p. m.—Bagged an albatross.

"4:10 p. m.—Had a bite of lunch I sensibly brought with me, and liked everything but the peanut butter and olive sandwiches. Am unable to understand anyone thinking up such a combination.

"5:17 p. m.—Suddenly remembered had not made July payment on car and wondered if company would take it away in my absence.

"5:17 p. m.—Water now about three feet deep in bottom. Probably bilge water, which is always in boats.

"5:40 p. m.—Water now four feet deep. Must not be bilge.

"6:10 p. m.—Not bilge. Found whole

VETERAN WAITS 20 YEARS FOR DISCHARGE FROM ARMY; GOT "BLUE SLIP"

ROBBINSDALE, Minn. (UP)—Recently received, honorable discharge papers of Walter G. Grinols of Robbinsdale, were 20 years late.

Grinols was discharged from the 151st Field Artillery regiment when he contracted pleurisy. At the time he received the customary \$60 bonus and a blue discharge certificate on which was the statement "loyal and faithful service." The blue certificate, however, Grinols learned many years later, meant dishonorable discharge.

He started action to obtain redress and after several years he received the correct papers honorably discharging him from service.

plank missing Jitters II, bottom.

"6:12 p. m.—Picked up by lobster fisherman. Be in tomorrow."

By Harry F. O'Neill

Europe Reports Job Increase

Germany, Showing Decline In Unemployment, Can Hide True Figures In Many Camps

GENEVA (UP)—Latest International Labor Office figures show that Britain now has 1,455,990 unemployed men and women, compared with 1,696,920 a year ago. But the number of men and women actually working is considerably greater than it was in 1929—the last pre-depression year—when the number of unemployed was under a million. Actually 111 workers now are employed where 100 were working in 1929.

In the past year, according to the figures Germany's unemployed dropped from 1,762,774 to 960,764, while that of France fell from 465,089 to 343,426. Belgium today has 113,296 unemployed and Japan about 325,000. Poland's unemployed increased by a few thousand to 415,000.

These figures only tell part of the story. In Britain the number of unemployed can be taken as about accurate, since all jobless men, women and youths are registered. In Germany there are a dozen ways by which the unemployed are removed from the unemployment relief registers—concentration camps, compulsory labor, simple denial of relief and elimination of names from the books, conscription. Furthermore, women are being taken out of industry and commerce and have to be supported by their parents. It is impossible to give the number of unemployed in Germany, but it is probable that it is at least 2,000,000, and possibly much more.

In France, too, there are various systems of unemployment relief—national and municipal. Only the national figures count. It is true, however, that the number of jobless has declined in the past year, due to the introduction of the 40-hour week and to the stimulus given to industry and trade by rearmament and the depreciation of the franc.

Actually the total number of unemployed in Europe today is about twice as great as the official figures show.

NATIONAL PARKS TO SET NEW RECORD FOR SEASONAL TOURIST VISITORS

SALT LAKE CITY—Tourist travel in the western states will exceed all previous years in volume and trade values, according to a report of the National Parks Service, which shows a 15 per cent increase in travel to the Rock Mountain National Park.

The Colorado park, on U. S. highway 30, is the third national park to report considerable increase in tourist travel this year. It counted 148,017 persons visiting up to July 13, as compared with 128,420 during the same period of last year. The bulk of travel was by private automobiles.

The Utah State Automobile Association predicted tourists would spend more than \$2,000,000 this year in Utah in comparison with \$1,500,000 for 1936. Idaho authorities predict a 25 per cent increase in tourist spending.

EMIGRATION OF ENVOYS—Recent shake-ups in the State Department sent two of these envoys to new posts abroad. Left to right: Hugh S. Gibson, former Ambassador to Brazil, now Ambassador to Belgium; Josephus Daniels, Ambassador to Mexico, who headed 15 members of the American Battle Monuments Commission, and Fred Norris Dearing, former Ambassador to Peru, now Minister to Sweden. The pictures were taken as they left New York on the United States liner Manhattan.

6 Injured In Truck Wreck

(Continued from Page 1)
eastbound, and the other passenger car was westbound, as was the fire truck.

Whether the crash resulted through failure of the motorists to give the fire truck the right of way has not been determined, but in attempting to get around the one car and pass the Phelps car, the fire truck is reported to have been forced so far to the left of the road that it sideswiped the Phelps car with its rear end, and was then thrown into the other car's rear, before being run into the ditch.

It was said that Miss Phelps was driving her car as far to the right-hand side of the highway east bound as was possible and that she was unable to get further to the right owing to a ridge of surfacing material which lined the highway.

The fire subsequently was controlled by an auxiliary suppression crew.

41 YEARS IN SERVICE, HACK DRIVER RETIRES; BEGAN WORK IN 1889

JACKSONVILLE, Ill. (UP)—Seventy-one-year-old Charles Dalrymple, oldest Jacksonville taxicab driver, has retired after 41 years in the business.

Dalrymple opened his taxi stand in the horse and buggy days—on Nov. 25, 1889. Fares ranged from 25 to 50 cents, according to distance traveled.

Following a five-month enlistment in the army for the Spanish-American War, Dalrymple entered into the transportation and livery service, later selling his livery stable.

In 1915 he discarded his horse and buggy for the more modern gas-operated vehicle, and plied his trade down through the years. Although he had no idea as to the miles he has traveled during his years as a cab driver, Dalrymple does hold the long-distance record for service as a taxicab driver in this section.

Earl Hall, of the regional forest office, was on Eldorado Forest Friday in connection with the inspection of equipment.

CORN LOOKS GOOD — Predictions, out where the tall corn grows, indicate a bumper crop of the grain this season. Here, J. A. Orr of the Crop Reporting Board of Washington, and Leslie M. Carl, Federal crop statistician, find healthy tassels and silk on the William Pearson farm in Dallas county, near Waukegan, Iowa.

"Sweet Adeline" Waited 5 Years For Music House Publication

FORT WORTH, Tex. (UP)—The composer of "Sweet Adeline" might never admit it, but that popular song was written for five years before anybody had the courage to print a revised version.

"It took me five years to convince a publisher that 'Sweet Adeline' had anything," said Harry Armstrong, composer, appearing currently in "Melody Lane" at the Fort Worth Frontier Fiesta.

Armstrong said that he wrote the tune at his home in Bedford Mass., 34 years ago—when he was 18 and named it "My Old New England Home." It was introduced by the town quartet of which Armstrong was a member.

A year after the song was written, Armstrong went to New York and offered it to a publisher. Nothing came of it, and the composer took a job playing the piano at Coney Island at \$2 for a 15-hour day.

Armstrong still believed the song had something, so he persuaded Charlie Lawlor, composer of "The Sidewalks of New York," to rewrite the lines. Result was "You're the Flower of My Heart, Sweet Rosalie."

Another trip to the music publishing houses proved useless, and "Sweet Rosalie" was shelved for three years before Armstrong decided to change "Rosalie" to "Adeline" and try again. This time, a publisher was interested.

"Sweet Adeline," the favorite of lamp-post troubadours, has sold 4,000,000 copies.

Child, 2, Knows 2,500 Words

Babe Says Alphabet, Counts To 100 And Recites Rhymes; Talked At 14 Months

FULTON, N. Y. (UP)—Fulton's child prodigy, Eudora Louise Graves, says the alphabet, counts up to 100, has a vocabulary of 2,500 words and recites nursery rhymes although she is only 2 years old.

Her parents, Mr. and Mrs. Richard S. Graves, already are planning a formal home education for her.

A pretty blonde baby with blue eyes and rosy cheeks, Eudora is in most respects quite the normal little woman. She plays with dolls, will pound the piano keys whenever the opportunity presents itself, and appears to enjoy roaming about the house.

Her words are understandable but not clearly pronounced.

Without faltering once, she can name the 23 figures shown on her play blocks. The list includes bicycle, fox, wolf, truck, eagle, tractor, elephant, camel, seal, horse, train, car, pig, cannon, bee, airplane, dog, duck, Indian, boat, lion, mouse and zepplin. She can recite the name of every piece of furniture in the living room.

In the realm of mathematics, she can count up to 100 and also count to the same figures by tens. She recites "Jack and Jill," "Little Bo Peep," "Humpty-Dumpty," and can sing "Three Blind Mice," and "Two Little Feet."

She started talking when she was 14 months old.

HIGHWAY SAFETY TROPHY WON BY SAN DIEGO COUNTY FOR FISCAL YEAR

SACRAMENTO—Thirteen counties of California, with San Diego leading the list, showed a reduction of 72 traffic deaths on rural roads in 1936 as compared with 1935, according to figures made public today by the state department of motor vehicles.

As a result, San Diego County will receive the traffic safety trophy which was awarded by the California state chamber of commerce.

San Diego County's death total decreased 18 over 1935. In that year they totaled 62. In 1936 the total was 44.

Other counties having a decrease in deaths are Fresno, Monterey, Sonoma, Sutter, Contra Costa, Humboldt, Yolo, Ventura, Mono, Santa Clara, Shasta and Yuba counties.

"OVERSHOES" FOR AIRPLANE WINGS RULED OK BY COMMERCE HEAD

WASHINGTON (UP)—Civilian aviators and airlines obtained permission from Secretary of Commerce Daniel C. Roper today to put rubber "overshoes" on the wings of their planes this winter to prevent formation of ice.

Roper formally approved use of the new type of de-icer, which will be attached to the leading edges of wings and tail surfaces of planes.

The rubber "boots" are operated by compressed air supplied automatically from the power plant. Pulsations of air cause the overshoe to expand and contract, breaking up the ice so that it will be stripped off by the rush of air.

FLYING DOCTOR

CLONCURRY, Australia (UP)—Dr. Jean White is believed to be the first woman flying doctor in the world. She has been appointed assistant to Dr. G. W. Alberry, who is obliged to make practically all of his calls over a vast territory by air.

FOUND
PETRIFIED MAN
IN THE SANDS OF MISSOURI RIVER

One of the Wonders of the Scientific World

This Exhibit is for the benefit of science and deep thinkers. Those who have been taught that flesh will not petrify will find that this particular subject is an exception above all others, showing a transformation, nature's wonderful way of embalming, nature's masterpiece. Doctors are puzzled and scientists wonder. This is not a mummy, but a fossil form of a human body taken from the sands of the Missouri River in Mont. by Thomas Dunbar, a trapper. His hair, finger nails and teeth are, perfect as your own.

Also shows wound on head, hands strapped together across the breast, evidently having been tortured and murdered by Indians. Pronounced by competent physicians and the Butte Inter-Mountain as the Wonder of the Age; also by Drs. Sheeran and Vicars of Livingston (Montana, Marvel of the Century. A rare specimen. Must be seen to be appreciated. We show courtesy to all doctors, and specialists are invited to make examinations at any time it suits their convenience.

Educational exhibit for ladies, gentlemen and children—

BEING EXHIBITED ON UNION OIL SERVICE STATION LOT, LOWER MAIN ST., FOR 3 MORE DAYS, ENDING SATURDAY NIGHT JULY 31ST — OPEN EVENINGS.

H. S. Pupils Will
Learn To Drive

Dual Controls Used In Car For Instruction In Making Gear Shift, Use Of Clutch

DALLAS, Tex. (UP)—W. A. Keene, who instructed 45 teachers how to teach safe automobile driving in a summer course at Texas A. & M. College, will form a driver training course this fall for 500 students at Dallas Technical High School.

Similar training courses met with success last year in 10 high schools in New York, Maine, Pennsylvania, Ohio and other states. Nine colleges, including Texas A. & M. and Texas Technological College, are offering safe driving instruction courses this summer.

The course at the high school will be worked out with co-operation of the Dallas Citizens Advisory Traffic Commission and the American Automobile Association.

Keene said the course will be taught with actual automobiles being used in demonstrations and road instruction. The cars will be painted white, with special AAA driver training lettering and a set of dual-control clutch and brake pedals installed in the right hand front seat position for use of the instructor. The dual control pedals will be connected directly with the driver's regulation pedals.

Correct clutching braking and proper shifting of gears are learned more rapidly by the student through the use of the dual controls, Keene pointed out and danger of mishaps during the instruction period is lessened.

Personals

A certificate of record Friday at the courthouse tells of the birth of a daughter, Gay Wyant, to Mr. and Mrs. James R. Wyant of Placerville, on July 28.

The birth of a daughter, Eulalia Maria Gonzales, to Mr. and Mrs. Jose Gonzales of Placerville, on July 17, was recorded with County Recorder Charles Marsh on Friday.

Mr. and Mrs. F. M. Wudell and daughter, Doris, are in San Francisco this week attending Market Week. They expect to be home August 9th.

Mrs. Martin Luther has returned from Zephyr Cove, Lake Tahoe, where she was a delegate from the El Dorado County Federated church to the annual California Synod.

Lower panel shows some of the 224 truck balloon tires on which the 159-ton affair is mounted and moved about by a tractor. Dressing rooms are at either side of the stage

KING OF THE GYPSIES—At the first Gypsy coronation held in 1,000 years, Janusz Kwiek was crowned king, in a spectacular ceremony at Warsaw, Poland. He is shown with attendants. Ceremonial robes and chair were borrowed from the Warsaw Opera House. Janusz succeeds Matejusz Kwiek, who recently died.

Rising Waters Of Lake To Hide
Industry Founded In 500 A. D.

By WELLAND GORDON

United Press Staff Correspondent

LAS VEGAS, Nev. (UP)—Waters of Lake Mead, slowly piling up behind Boulder Dam, today are wiping out an industry which thrived as far back as 500 A. D.

The old St. Thomas salt mine, with its mountain of salt 300 feet high, said by scientists to have been worked by Pueblo Indians as early as the start of the fifth century, is beginning to disappear. Eaten away by the man-made lake, great pile of salt will contaminate the waters to any extent.

Several years ago the ancient salt mine attracted scientists from afar when evidences were discovered that man, in the dawn of history, had engaged in industry there. Digging tools, fashioned from rocks tied together with leather thongs, were dug up. They proved, said archaeologists, that the mine was the base of one of the principal workings of the Pueblo Indians who inhabited the territory from about 500 A. D. until about 1200 A. D.

The more modern history of the mine started in our own early western days when the first of the Bonelli family, emigrating from Switzerland, settled in the St. Thomas section and became influential in its development.

There the Bonellis, according to old timers, organized the Virgin River Salt Company and operated the mine and a salt mill for many years. Finally, the Virgin River Company died and the mine was worked intermittently by various residents of the area. During the past few years thousands of tons of salt have been taken out.

The old mine lies at the base of the salt mountain, but already the rising waters of Lake Mead have covered the road over which millions of tons have been hauled through 14 centuries, and today the ancient workings are isolated, approachable only by boat.

Each day the waters rise; and soon all trace of the industry of 500 A. D. will be buried under the waters of progress of 1937.

Gold And Oil
Output Up

Production Of Minerals Sets All-Time Record During 1936, Mines Bureau States

By FRED BAILEY

United Press Staff Correspondent
WASHINGTON (UP)—Americans last year extracted more than \$4,500,000,000 in oil and minerals from the earth, according to a preliminary figure compiled by the U. S. Bureau of Mines.

Oil and gold production established new all-time records. Coal production was at the highest level since 1930. Iron and steel output increased for the fourth successive year. Copper production increased 48 per cent over 1935. The bureau estimated the total production of minerals in 1936 amounted to \$4,582,000,000 as compared with \$3,650,000,000 in 1935 and \$2,463,000,000 in 1932, the low point of the financial depression. Production this year has been at an increasingly high level.

Employment in the mineral industries, which gives work to more than 1,000,000 persons directly and to several millions indirectly, has been steadily rising, the bureau said. It added that the mining industry has contributed largely to the general recovery movement.

Stimulated by the increased price of gold, production last year was two-thirds larger than in 1929, the bureau said. In terms of dollars American gold mines had the largest production on record "by a considerable margin," it was said.

S. F. Burglary Suspects Are
Arrested In Arizona

PHOENIX, Ariz. (UP)—Cecil Bethune, 23, and Robert John Daley, 28, were held in city jail in lieu of \$5,000 bond each today to await extradition action by San Francisco police who accused them of the \$10,000 robbery of a jewelry store there. The pair, arrested here by Police Chief Dave W. Fountain when they were found with jewelry valued at \$3,000, have signed waivers of extradition, police said.

TOURISTS TO JAPAN

SAN FRANCISCO (UP)—With American tourists to Japan averaging 1,000 monthly for some time past, Isamu Ohya, newly arrived director of the Japanese Board of Tourist Industry, predicts that this number will be greatly exceeded during the present

LION INFLECTS FATAL HURTS ON
ONE-TIME PREACHER WHO
OPERATED SIDE-SHOW

SKEGNESS, Eng. (UP)—Harold Davidson, unfrocked rector of Stiffkey, died today while crowds flocked to see the lion that mauled him when he played his sideshow role in "Davidson in the Lion's Den."

The former rector of Stiffkey, a small town in Norfolk, was unfrocked in 1932 after a trial before the Norwich Ecclesiastical court.

He was accused of being a philanthropist and of systematic immortality with waitresses, actresses, domestic servants and other young women whom he claimed he was trying to "save from sin."

A procession of young and pretty girls testified that the grey haired rector, then 62, had tried to seduce rather than rescue them.

Nazi Police Jail Three For
Suspected Trade Unionism

BERLIN (UP)—Secret police arrested 50 persons today, including three former leaders of the dissolved Socialist Trade Unions, on charges of attempting to reorganize the unions. Many homes were searched.

"The truth of the Lord endureth for ever. Praise ye the Lord." These words from Psalms comprised the Golden Text used Sunday, July 25, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The subject of the Lesson-Sermon was "Truth." Included among the Scriptural selections was: "For God, who commanded the light to shine out of darkness, hath shined in our hearts, to give the light of the knowledge of the glory of God in the face of Jesus Christ" (II Cor. 4:6).

Mrs. Maud Cooper is in Sacramento for a few days.
